

YOUR FRIENDS AT THE ZOO  
SAY...

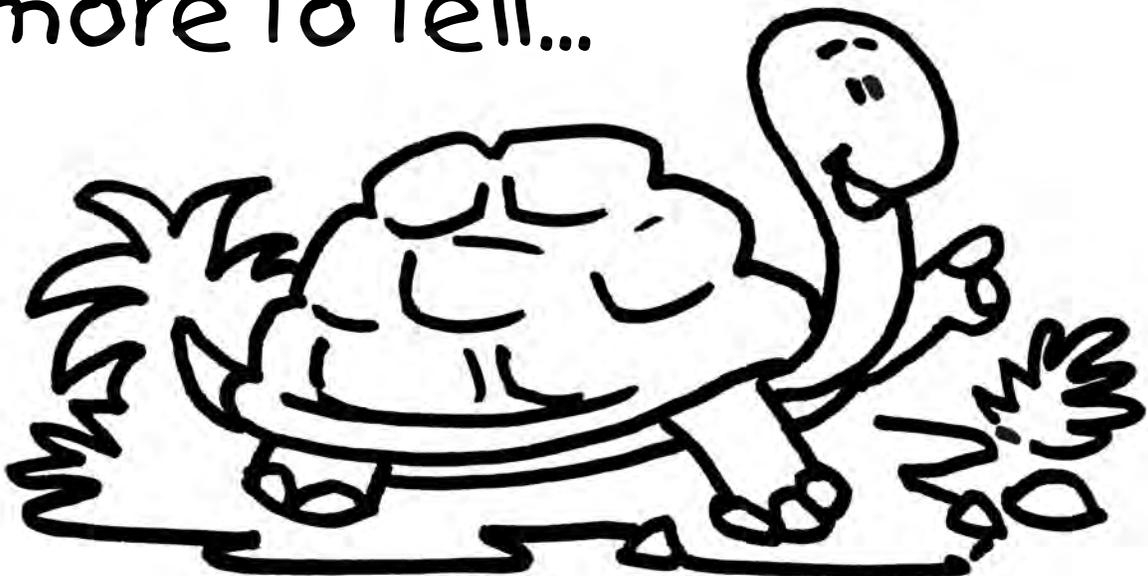

IMMUNIZE BY TWO!

Ellie the Elephant says...  
VACCINES KEEP YOU WELL

Tommy the Turtle has  
more to tell...

Vaccines keep you from diseases like these...

...Leonard the Lion  
knows they are  
truly a breeze!

Sally the Snake knows vaccines  
keep you feeling better...

...so just visit your Doctor  
or Local Health Center!

Join in the chorus with  
all your friends at the ZOO...

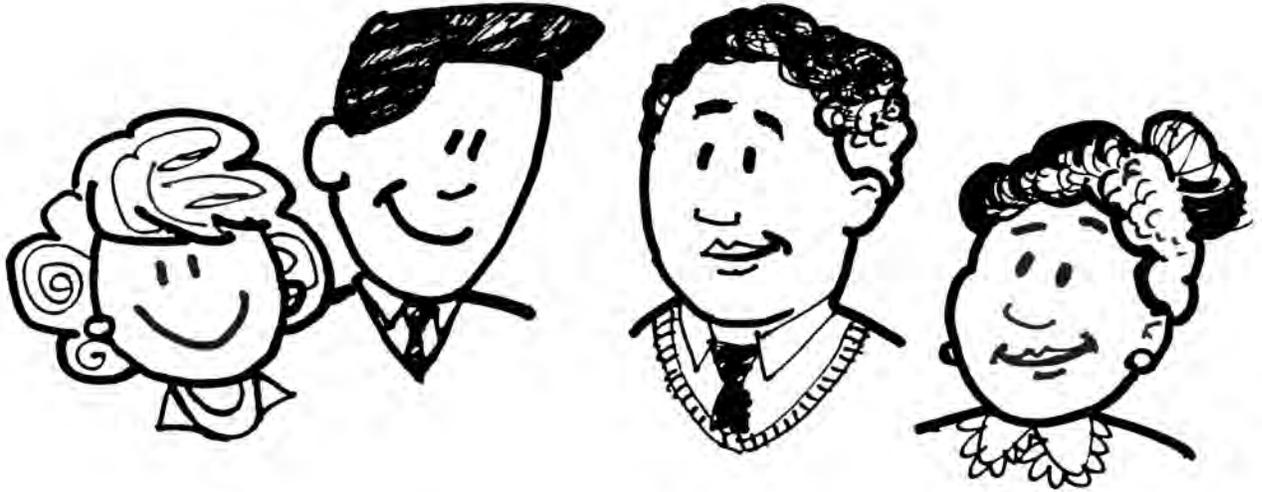

IMMUNIZATIONS BY AGE  
TWO ARE IMPORTANT TO YOU!

An immunization registry keeps shot records secure,  
Whenever you need them they'll be there for sure,  
So make sure your doctor or nurse does their part,  
By storing your child's records in both the registry and chart.

# A Message for Moms, Dads, and Grandparents too...

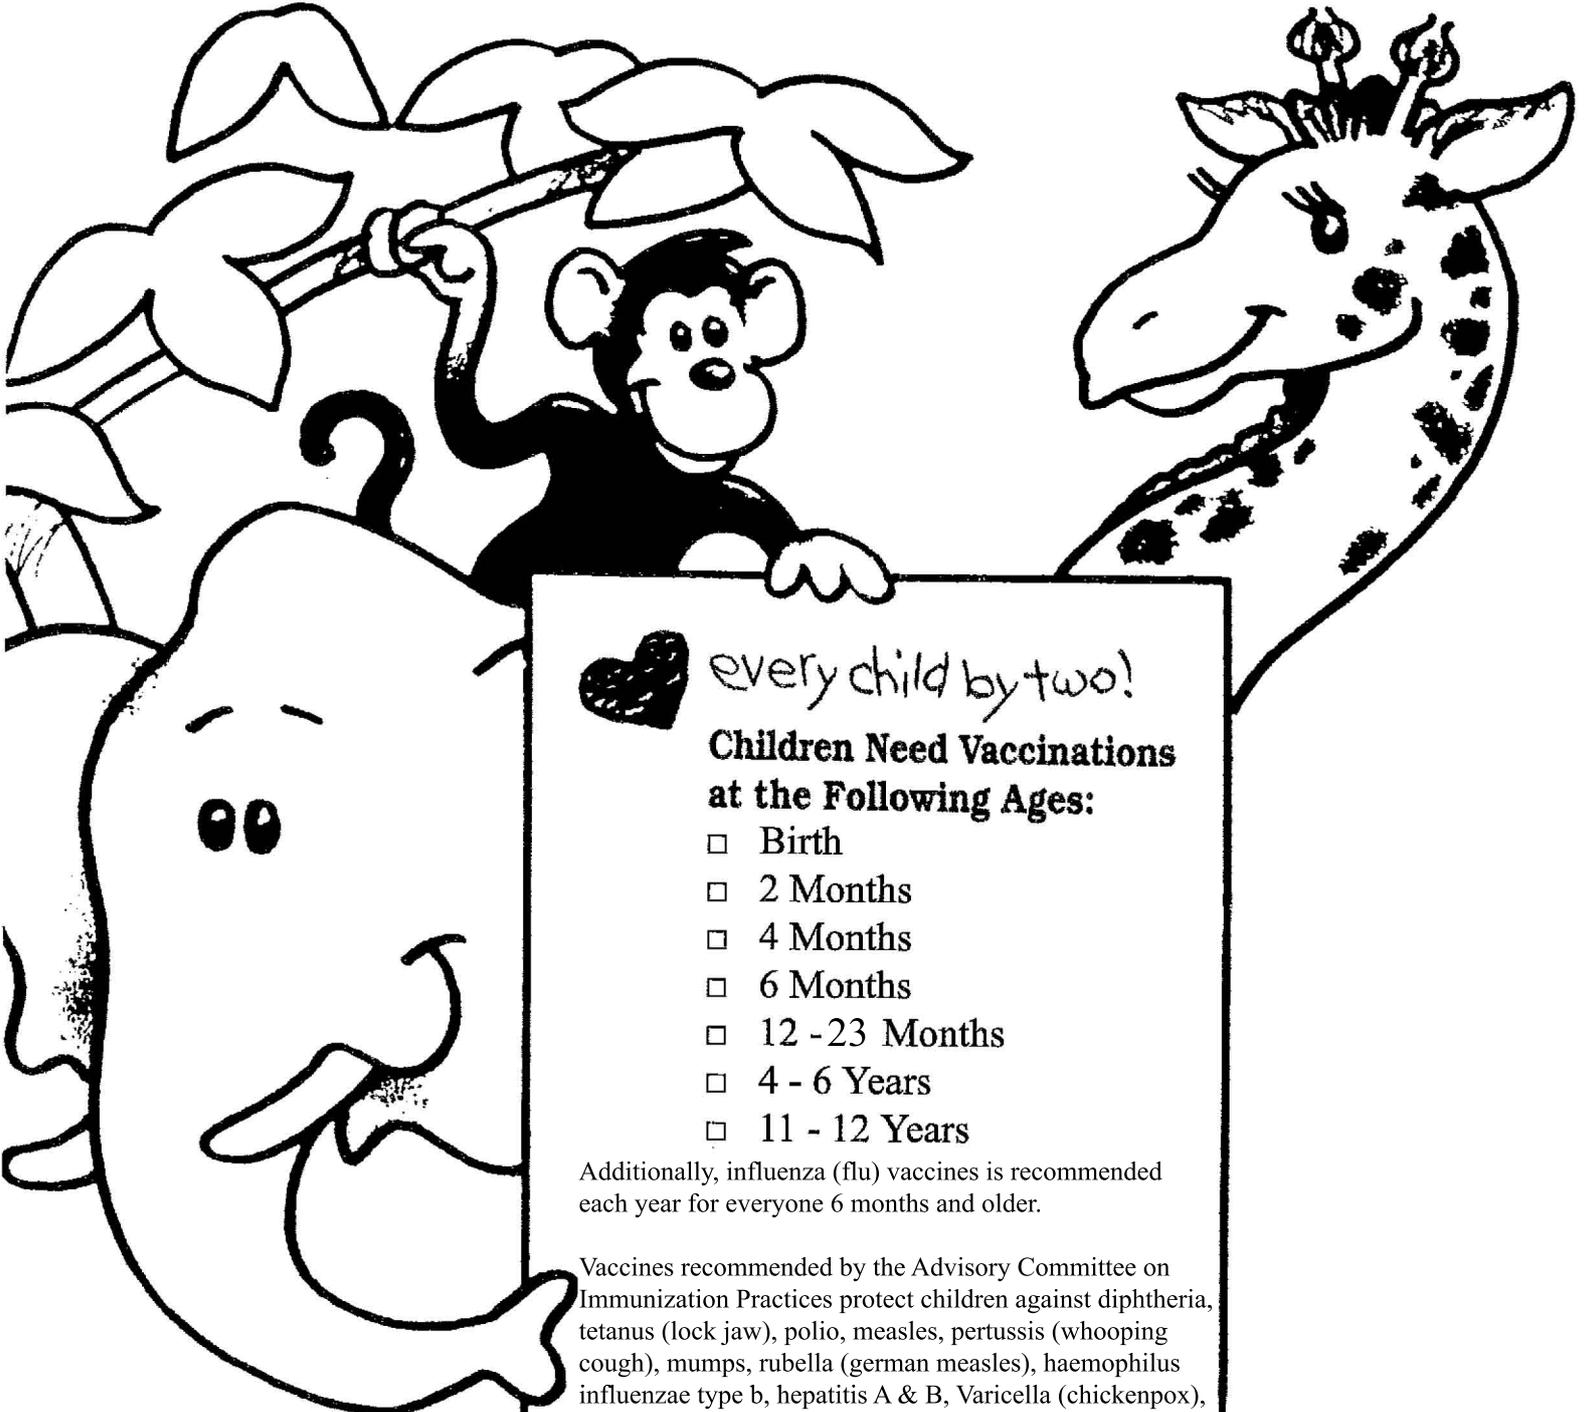

Children also need a medical home...  
to help them stay healthy while they grow.

Regular visits to a doctor or nurse  
can help with what ails them and  
help mend their hurts.

You deserve a round of applause  
and all the credit goes to you...  
for making sure your babies and toddlers  
get all their vaccines by age TWO!

every child by two!

**Children Need Vaccinations  
at the Following Ages:**

- Birth
- 2 Months
- 4 Months
- 6 Months
- 12 - 23 Months
- 4 - 6 Years
- 11 - 12 Years

Additionally, influenza (flu) vaccines is recommended each year for everyone 6 months and older.

Vaccines recommended by the Advisory Committee on Immunization Practices protect children against diphtheria, tetanus (lock jaw), polio, measles, pertussis (whooping cough), mumps, rubella (german measles), haemophilus influenzae type b, hepatitis A & B, Varicella (chickenpox), invasive pneumococcal disease, invasive meningococcal disease, HPV, rotavirus and influenza (flu).

Be sure to complete any series of immunizations once started. One or two doses of a series is not adequate protection. Older children may need additional vaccines or booster shots. Call your doctor or local health clinic for more information.

The following chart lists the names of the vaccines recommended for your child and the diseases that they prevent.
