

# Dear Parents/Guardians,

Student safety is a top priority, which is why we're taking part in the **Take Care of Each Other** campus safety initiative created by the National Crime Prevention Council (NCPC) and Young Minds Inspired (YMI), and made possible by Uber. The program provides students with essential information to guide them in making safe choices both on and off campus.

Our school will be using the initiative's Campus Safety Toolkit materials with students over the coming weeks. The topics covered during the program will include ridesharing safety, sexual assault prevention, off-campus safety (including streetwise habits and responsible alcohol use), and on-campus safety (including dorm security and mental health). We'll also review campus safety resources and contacts.

Parents are invited to download the handouts included in the initiative and discuss them with their children to reinforce this critical safety information. You can learn more and download your copy of the materials here:
