

Dear Student,

Creating a safe and supportive community on campus requires each individual to take responsibility for their own safety, while also committing to taking care of others. That's why we're taking part in the **Take Care of Each Other** campus safety initiative created by the National Crime Prevention Council (NCPC) and Young Minds Inspired (YMI), and made possible by Uber.

The program contains essential information and tips on:

- ridesharing safety
- sexual assault prevention
- off-campus safety, including streetwise habits and responsible alcohol use
- on-campus safety, like dorm security and mental health

You can download copies of these handouts at ymiclassroom.com/campus-safety. And be sure to connect with your advisors to learn about campus safety resources and contacts so you know whom to go to if you need help.

Make our campus even safer by sharing this information with others.

Sincerely,

[Insert Your School Name or Logo]
