

Dear Educator,

Help your students score big in good nutrition by creating a game plan for the grocery store! Studies show that eating healthy is important for physical and cognitive performance.* But many students need support to know where to start.

Fuel Up to Play 60 can help with that! This free wellness program from the National Dairy Council and the NFL in collaboration with the USDA provides schools with a game plan to promote balanced nutrition, beginning with a healthy breakfast, and get students moving for 60 minutes each day.

The American Dairy Association North East (ADANE) has teamed with the curriculum experts at Young Minds Inspired to help you make *Fuel Up to Play 60* the foundation of your school's wellness program throughout the coming semester. Every two weeks, you can find a new lesson plan for grades 9-12 at ymiclassroom.com/futp60 with activities that reinforce balanced nutrition and daily physical activity.

This week's lesson plan focuses on making smart choices when grocery shopping by choosing foods that meet the MyPlate guidelines, and includes tips for shopping within a budget and reducing food waste. The activities can be completed by students at home or in class, to accommodate both home-based and school-based instruction, and include ideas for engaging students' families in your school wellness program as well.

We hope you will share these materials with your principal, health teachers, family and consumer science teachers, athletic directors, coaches, parent coordinators, and anyone else who works with high school students in your community. Please let us know your opinion of this year's *Fuel Up to Play 60* program by visiting ymiclassroom.com/feedback-futp60. We look forward to your comments and suggestions.

Sincerely,

Kristina Moher
Director of Youth Engagement
American Dairy Association North East

About Fuel Up to Play 60

Fuel Up to Play 60 is a free K-12 health and wellness program designed to help schools meet their wellness goals by encouraging youth to eat nutrient-rich meals and participate in at least 60 minutes of physical activity each day.

Fuel Up to Play 60 offers educators many free resources, including a Playbook packed with creative ideas for implementing school wellness plans, annual funding opportunities, personalized educator and student dashboards, and innovative ways to earn incentives and rewards. Individual students also have the chance to become leaders in their schools and communities by becoming *Fuel Up to Play 60* Ambassadors. Any registered school that meets its wellness goals qualifies to become a "Touchdown School" and receives a fun *Fuel Up to Play 60* prize pack for their students. Learn more and sign up at www.fueluptoplay60.com.

Target Audience

Grades 9-12

Program Components

Available at ymiclassroom.com/futp60:

- This one-page teacher's guide with a reproducible activity sheet
- Additional resources, including a reproducible letter to encourage your colleagues to become *Fuel Up to Play 60* advisors

Objectives

- Encourage students to eat a healthy breakfast and get 60 minutes of physical activity every day
- Raise awareness about shopping for healthy food choices on a budget and reducing food waste
- Support health, decision-making, and language arts skills

How to Use This Activity

A Page from the Playbook: Shop Smart

In this activity, students learn how to make informed choices when grocery shopping and how to choose foods that meet the MyPlate guidelines, including tips for how to shop within a budget and reduce food waste.

Ask students to share their role in food shopping and selection. Do they help shop and select food? If so, do they make a menu of meals and plan a shopping list?

Tell students that it's important to "shop smart" at the grocery store. It can help a family make healthier food choices, stay on

a budget, and reduce food waste.

Part 1: Review the first paragraph with your students and discuss the MyPlate graphic. Then have students visit the two websites listed on the activity sheet to find facts they can use to create a true/false quiz about healthy eating on a budget and reducing food waste. Students should also provide the answers with explanations. Then have students exchange quizzes with a partner. Review the answers and facts students learn.

Part 2: Have students use information from the two MyPlate webpages to imagine they are managing the social media site of a grocery store. Have them create three "tweets" of 280 characters or less (on paper) to help families shop smart for a healthy lifestyle and to reduce waste. When done, have students share their messages with each other and their families.

Fuel Up to Play 60 Connection

Have students consider how your school could reduce food waste and take action by visiting the "Food: Waste Less and Enjoy — It's Good for All of Us!" play found at www.fueluptoplay60.com/playbooks/fuel-up-to-play-60-playbook/food-waste-less-and-enjoy---its-good-for-all-of-us#tab_tab2.

Check Your Touchdown School Progress

There's still time to become a "Touchdown School" by following these simple steps:

- 1. Get Started** — Build a *Fuel Up to Play 60* team of students and educators and complete a School Wellness Investigation. Target deadline: 9/30/20
- 2. Eat Healthy** — Implement a Breakfast After the Bell play. Target deadline: 10/31/20
- 3. Get Moving** — Develop a plan to get Complete these steps by 11/30/20 for a chance to receive a *Fuel Up to Play 60* student prize pack. Contact futp60@milkm4u.org to learn more.
