

Plasma Putty Power

Clay can create an invinci-ball forcefield around himself. This helps him stay safe.

When Clay activates his superpower, he becomes surrounded by a rubbery ball. What other objects below are round like a ball? Find and circle them.

After you have circled all the round objects, name the other shapes you see.

Families: Help children stretch their imaginations. On your next walk or errand, challenge children to name all the round items they can identify.
