

Every Story Needs a Twist!

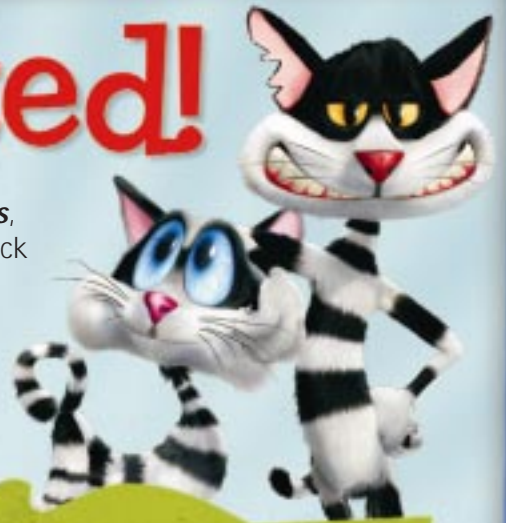

Part A The *Twisted Whiskers* gang wanted to write a story for their TV series. But, in crazy "twisted" style, they made a fill-in-the-blanks instead. Now they need your help. Fill in the missing words and finish their story. Remember, just like the characters in *Twisted Whiskers*, you can be as silly as you want to be! Then, share your story with your classmates!

Dander decides he could go for a _____ (noun) because he is _____ (adjective). He invites Yawp and Cutie Snoot, too. Yawp wags his tail and _____(s) (verb) on the couch. But Cutie Snoot would rather _____ a _____ (verb + noun) instead. "Some friends!" Dander thinks to himself. "I guess I'll just go to _____ (place) by myself. See if I ever _____ (verb) them again!"

Part B Make your own *Twisted Whiskers* fill-in-the-blank story. Write about *Twisted Whiskers* characters that you see on the poster in your classroom. Your classmates can fill in the blanks. (Leave out at least one noun, one verb, and one adjective.)

That's Twisted!

Part A In the "Ticked Off" episode of *Twisted Whiskers*, Claude takes Goosers to the vet. Goosers had a tick on his head, and the vet needed to get it off. But in the end, that tick went back home with Goosers.

Do you remember this scene from "Ticked Off"? Take a closer look. You'll see that some things have been twisted around. Can you find the eight things that aren't quite right? Draw a circle around each twisted thing you find and then color the picture...in your own "twisted" way.

Part B Thank you for helping fix the vet's office! Now let's finish the story about that icky tick. Write two "twisted" sentences about what happens when Claude and Goosers get home. You can write them on the back of this sheet.

My Twisted Wishes to You!

The *Twisted Whiskers* characters have their own cards, too. You can find them in stores and online. There are birthday cards, holiday cards, thank you cards, and even cards that just say "hi."

Make a brand new card that shows your own "twisted" character. Take an 8.5" x 11" sheet of plain paper and fold it in half to make a card. Then cut out the pieces below and paste the pieces on the front of the card, inside the card, and even on the back to create your own "twisted" card. You can color it and write your own special message on the front and inside.
