

Saving Little by Little Makes Cents!

How much do you know about money?

1. Can you find 5 pennies? Draw  around them.
2. Can you find 2 quarters? Draw  around them.
3. Can you find 4 nickels? Draw  around them.
4. Can you find 3 dimes? Draw  around them.
5. Can you find 1 dollar bill? Draw an  around it.

→ **Parents:** Because every penny counts when you're saving for college, it's important to start saving with a plan that gives you the most for your money. If you have trouble making "cents" of investing, North Dakota's College SAVE Plan helps make it easy through investment options that automatically become more conservative as your child grows older and nears college.
