

# COATINGS — THEY'VE GOT YOU COVERED!

## AT HOME

Available in hundreds of colors and textures, paint is an easy, inexpensive way to personalize any room.

Waterproof and reflective coatings keep you dry and safe.

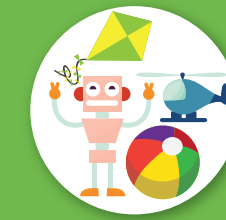

Chalkboard paint turns any wall into a creative space.

Coated cartons keep food from leaking and spoiling.

Coated solar panels convert the sun's light to energy.

## AT PLAY

Lubricants keep your wheels spinning smoothly.

## AROUND TOWN

Anti-corrosive coatings protect bridges and infrastructure.

Anti-fouling paint prevents sea life and corrosion from destroying boats.

Sensor and lens coatings work with highway markings to keep us on the road.

Conductive coatings keep you in touch with your digital world.

Protective coatings prevent rust.
