Don't want to answer a question? No worries!
This is a **no-judgment zone**.
Just roll again!

How Do You Roll?

Everybody *rolls* differently. Find out just how unique your classmates are by asking them six questions of your choice. Write a different question in each square. Next, cut along the solid outer lines. Fold along the dotted lines. Then glue the sides together using the tabs to make a cube.

A large net for a cube, consisting of six squares arranged in a cross pattern. Each square contains four horizontal red lines for writing. The net includes solid outer lines for cutting and dotted lines for folding. There are tabs on the top and bottom edges of the side squares for gluing the cube together.

When you're done, take a moment to think about what makes you unique. How do *you* do things differently? What's *your* goal? On a separate sheet of paper, write your own rap anthem, poem, song, or slogan that summarizes your unique outlook, skills, values, and beliefs.
