

Grade 2

Make an Escape Plan!

Mia knows that she needs to get out fast when she hears a smoke alarm. That's why she and her mom are making a home fire escape plan. You and Pedro can help them! Look at this map of Mia's home. Draw lines to show two paths to get outside from each room. One path out could be through a doorway. Another path out could be through a window. Mia has already marked the two paths from her bedroom to help you get started.

Now work with a grown-up to find two ways out of every room in your home. Help your grown-up draw a map of your escape plan, like the map of Mia's home. Then decide on a meeting place where everyone will go as soon as they get outside. Mark your meeting place on the map. Bring your escape plan map to class to share with your classmates.

Home Fire Escape Rules

Use the word bank to fill in the missing words of these four home fire escape rules. Share the rules with your family.

Word Bank: anything burning go low meeting 9-1-1 outside smoke

1. Never take _____ with you when you are escaping a home fire.
2. Get _____ and _____ when you have to escape through _____.
3. After you get to your _____ place, remind a grown up to call _____.
4. Stay _____! You should never go back into a _____ building.

A Message to Parents and Guardians: Practice your escape plan with a home fire drill at least twice a year. Make sure everyone can get out in less than two minutes!
