

# LOADING THE BASES

Baseball is a game of numbers. Can you help Snoopy with math in baseball? Use the picture to help you solve the math problems below!

## SNOOPY™ BASEBALL

There are 4 bases in a baseball diamond.

A player scores 1 point for running around all 4 bases.

A team has 9 players on the field when they are not at bat.

A game has 9 innings.

Each team that is up to bat has 3 outs.

Each batter gets 3 strikes before they are out.

1. Snoopy's team is on the field. How many players are on the field? \_\_\_\_\_
2. Snoopy is up to bat! He has 2 strikes. How many more strikes until he is out? \_\_\_\_\_
3. Snoopy got a hit! He runs to second base. How many more bases does he need to run to in order to score? \_\_\_\_\_
4. It is the fifth inning. How many more innings are left until the game is over? \_\_\_\_\_
5. The game is over. Snoopy's team scored 7 runs. The other team scored 5 runs. Which team won? \_\_\_\_\_ By how many points? \_\_\_\_\_

**Did you know?** The highest scoring game in Major League Baseball history was the Chicago Cubs vs. the Philadelphia Phillies on August 25, 1922. The Cubs scored 26 runs and the Phillies scored 23 runs, for a total of 49. Now it's your turn to hit it out of the park! What fun numerical fact about baseball can you find with your family's help? Search the internet, then share your fun fact with the class!
