

# How Dairy Cares

Dairy farmers care about healthy cows, healthy farms, and healthy families!

The Bitler family at Vista Grande Farms, Fleetwood, Pa., care for their animals, the environment, and families every single day on the farm!

## How do you care for animals, the environment, and your health?

The kids at Four Springs Farm in Kutztown, Pa., care for cows and pets!

At Star Rock Farm in Conestoga, Pa., they wash and reuse cloth towels to keep cows clean instead of single-use paper towels to protect the environment.

Students choose milk from local dairies at lunch to fuel their bodies and stay focused at school.
