

Snoopy in Space

Part 1: Artemis I is the first in a series of space missions that will take humans back to the Moon, to Mars, and beyond. After watching the video your teacher shows you, label the following statements with a T for true or F for false.

1. ___ The goal of the Artemis missions is to visit every planet in the solar system.
2. ___ The spacecraft preparing to take astronauts to the Moon in February is named *Orion*.
3. ___ The spacecraft will be launched by the most powerful rocket system in the world.
4. ___ “Pre-staging” means “setting the stage” for a Mars landing.
5. ___ A dedicated lunar station will be in permanent orbit around the Moon.

Part 2: Imagine that you are part of a future Artemis mission. As a member of the crew, you get to help design a mission patch! Draw your design in the box. Check out the picture of the real Artemis patch below.

Families: Today your child learned about the first Artemis mission, which is scheduled to launch in February 2022. Visit www.nasa.gov/what-is-artemis to learn more about these exciting missions and the fascinating plans NASA has for future space travel and exploration.
