

The Cretaceous World

Sixty-six million years ago there were no humans. Dinosaurs ruled! Scientists work tirelessly to discover the secrets and clues dinosaurs left behind about their magnificent lives. New ideas and discoveries are being made all the time. Research with your class to become Cretaceous Era Experts!

Document what you already know about dinosaurs.

Brainstorm what you would like to know.

Research new learning. *Hint:* Feeling stuck? Pick a dinosaur you like and use the questions below to take a deep dive into their world.

Share your new learning.

What We Think We Know	What We Want to Know	What We Learned

Questions to consider about dinosaurs:

- Where did they live?
- How did their bodies help them survive?
- What did their home look like?
- What would happen if their world changed?
- Why did they live there?
- What did they look like?
- What did they eat?

Families: Apple TV+'s new five-part documentary series premieres on May 23. Watch **Prehistoric Planet** to see your favorite dinosaurs and discover some new ones as they interact in amazing ways!
