

# PREHISTORIC PLANET

## Dear Families,

Get ready to go back in time 66 million years to the Cretaceous period when flying giants soared in the air, reptiles patrolled the coast, and dinosaurs ruled the land. New discoveries are teaching us more than ever about how these amazing creatures survived and thrived, and even interacted in surprising ways. From May 23-27, **Apple TV+** is bringing **Prehistoric Planet** to life for a five-night television documentary event with dazzling scientifically sound graphics, new knowledge, and even music using fossils as instruments—you'll see dinosaurs like never before!

Your child is learning about dinosaurs and the creatures that lived alongside them with curriculum materials created by Apple TV+ in collaboration with curriculum specialists at Young Minds Inspired. You can continue the learning and excitement at home—each episode of **Prehistoric Planet** makes a great family activity to watch together and discuss.

## Explore Prehistoric Planet

The series explores dinosaurs in their habitats, including:

**Episode 1: Coasts**—A pregnant *Tuarangisaurus* is in distress—and her young calf can sense it—as she travels waters that are home to the ocean's deadliest predators.

**Episode 2: Deserts**—Above the deserts of North Africa, aerial combat ensues as male *Barbaridactylus* pterosaurs fight for the attention of females below.

**Episode 3: Freshwater**—With its feathered body and duck bill, the eight-ton *Deinocheirus* wades through an Asian wetland in search of relief from pesky biting flies.

**Episode 4: Ice Worlds**—Within the snow-covered forest, a tense standoff develops between ancient rivals, *Pachyrhinosaurus* and *Nanuqsaurus*.

**Episode 5: Forests**—A journey through an underground cave in North America turns perilous when a young *Triceratops* is separated from its mother.

Keep finding dinosaur facts as a family with these fun activities:

- Go to the **Prehistoric Planet** show page on Apple TV+ to watch videos and hear more from the experts on how this story came to life. See [apple.co/-PrehistoricPlanet](https://apple.co/-PrehistoricPlanet) to learn more.
- Create a list of interesting facts and questions while watching **Prehistoric Planet** to research together.
- After each episode, make dinosaur fact cards to play a family quiz game.
- Visit a local natural history museum, an outdoor dinosaur fossil exhibit, or a virtual museum and identify as many dinosaurs as you can.
- Visit a local library for books on dinosaurs and their habitats. Local librarians can help your family get set up with library cards and e-reader and audio public library accounts to read anywhere on the go. Become science investigators together.
