

# Elemental Design

The neighborhoods of Element City look different depending on which element lives there. Think about the needs of the characters in Fire Town, Garden District, Water District, and Air District. What might the different neighborhoods look like? It's your turn to be the architect and engineer!

**Choose** an Element City neighborhood.

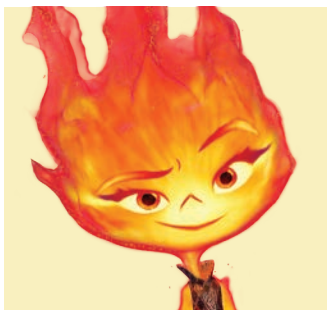

**Design and draw** a room, home, or building for the neighborhood you choose.

**Describe** your picture on the back of this sheet.

**Challenge!** What can you add to your design for friends from other areas of Element City (other elements) who visit?

**Share** your ideas!

**Families:**  
 What do you think Element City looks like? Imagine it. Can you picture Fire Town, Water District, Garden District, and Air District? See these neighborhoods in Disney and Pixar's *Elemental* only in theaters June 16.
