

Summer Reading, Game Style

Want to add some fun to choosing your summer reading book?
Gamify it! Here are two ways to find a new book.

Part 1: Roll With It! Grab a playing piece (a paper clip or coin will do) and one or two dice. Then, roll the dice, and move your game piece along the path. When you land on a genre, check the Summer Reads list and pick a book from that genre. Bonus points: Read the book description aloud to a friend.

Part 2: Friend's Choice! Pair up with a friend. On the count of 3-2-1, each person picks a genre for the other one. Peruse the book list for your genre and choose a book that *your friend* might like. Then complete the information below. Cut along the dotted line and give your partner a personalized book recommendation.
