

INSTRUCTIONS

Go to ymiclassroom.com/outofmymind to play the game and download the classroom program.

1. Before starting this quiz, review the "Beyond Words with *Out of My Mind*" activities with students.
2. Explain that students will be playing a trivia game that will test their knowledge on general facts, much like the Whiz Kids competition in *Out of My Mind*.
3. Divide the students into two (or more) teams.
4. Project the game onto your whiteboard, review the on-screen directions and the categories, then explain the rules of play below. (See below for play options if you do not have a whiteboard.)
 - Determine who will be the moderator who reads the clues and keeps score — it might be you or a student.
 - A student from Team 1 will choose a category and point value, and the moderator will read the selected question.
 - The student can confer with teammates before giving their answer. Then the moderator will click "Reveal Answer."
 - If the student gives the correct answer, the team earns the points, and the next person on their team picks another question to answer.
 - If the student gets the answer wrong, the first student on the next team gets to pick a category and point value.
 - The moderator and teams should tally the points as the game is played.
 - The game ends when all questions have been answered. The team with the most points wins.

HOW TO PLAY OFFLINE

If you do not have a whiteboard, you can write the question categories on a gameboard grid on your chalkboard or chart paper, such as the image below. Then follow the game-play instructions above, except that as teams choose their categories, the moderator reads the questions on the following pages. The correct answer is listed below the question.

ENGLISH LANGUAGE ARTS (ELA)	SCIENCE	HISTORY	MOVIES AND BOOKS	OUT OF MY MIND (OOMM)
100	100	100	100	100
200	200	200	200	200
300	300	300	300	300
400	400	400	400	400
500	500	500	500	500
